Caring for injured and orphaned wildlife in Manitoba and Northwestern Ontario for over 30 years, Wildlife Haven Rehabilitation Centre also provides wildlife education and volunteer opportunities.
For over 30 years, Wildlife Haven Rehabilitation Centre has been caring for injured and orphaned wildlife from all over Manitoba and Northwestern Ontario. Wildlife Haven Rehabilitation Centre is a registered non-profit, volunteer-based charitable organization dedicated to the rehabilitation and successful release of injured and orphaned wildlife back to their natural environment, providing valuable outreach and education services to the community and engaging volunteers in a rewarding experience. Since 1984, over 35,000 injured and orphaned wildlife have been cared for. Wildlife Haven Rehabilitation Centre relies on the generous support of volunteers and donations to operate.

Formed in 1984 by a group of environmentally concerned citizens who cared about the successful rehabilitation of injured and orphaned wildlife, Wildlife Haven Rehabilitation Centre was first known by the name Manitoba Wildlife Rehabilitation Organization (MWRO). The volunteers started the organization out of their backyards and opened a centre in 1993 in Glenlea, Manitoba. The centre now operates in Ile des Chênes, Manitoba - only 8 minutes from Winnipeg.

How Can You Help?

Contact Us.

If you find an animal that you think may be injured or orphaned, contact us for advice. Wildlife Haven Rehabilitation Centre has the expertise to provide advice and appropriate treatment. We receive thousands of public inquiries each year and respond with wildlife education and advice.

Web: www.wildlifehaven.ca  Phone: 204-878-3740

Donate.

Costs for food, veterinary care, housing, facility maintenance and utilities add up quickly! We rely on your generous support to operate.

Volunteer.

We are a registered non-profit, volunteer-based charitable organization so we rely on volunteers, like you, to help rehabilitate our wildlife patients and educate the public.

History

Formed in 1984 by a group of environmentally concerned citizens who cared about the successful rehabilitation of injured and orphaned wildlife, Wildlife Haven Rehabilitation Centre was first known by the name Manitoba Wildlife Rehabilitation Organization (MWRO). The volunteers started the organization out of their backyards and opened a centre in 1993 in Glenlea, Manitoba. The centre now operates in Ile des Chênes, Manitoba - only 8 minutes from Winnipeg.
